## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see amendment, filed 8/3/2004, with respect to claims 1-10 have been fully considered and are persuasive. The rejections of these claims are withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record fails to teach or fairly suggest the *combination of all limitations* required in claim 1, including "a solid-state image sensor for outputting an image sensing signal in an interlace scan mode or a progressive scan mode; wherein an image sensing charge in each pixel of the solid-state image sensor is output as one frame signal in one frame period in the progressive scan mode and the image sensing charges from adjacent vertical pixels of the solid-state image sensor are added in the solid-state image sensor and output as one field signal in one field period in the interlace scan mode... scan converter means supplied with the image sensing signal from the image sensing signal processing means, for converting the image sensing signal in the progressive scan mode, into an interlace scan signal; control means for switching control of switching an input to recording means, in correspondence with an operation mode of the solid-state image sensor, and the recording means for recording the image sensing signal read out from the solid-state image sensor in the interlace scan mode or the progressive scan mode, directly onto a recording

medium, and for converting the image sensing signal read out from the solid-state image sensor or the removable memory means in the progressive scan mode, into an interlace scan signal, by the scan converter means, and then recording the interlace scan signal onto the recording medium.”

Regarding claims 2-5, the claims are allowed as being dependent of claim 1.

Regarding claim 6, the claim is allowed as being the method claim of claim 1.

Regarding claims 7-10, the claims are allowed as being dependent of the method claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
